Claims 1-16 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of copending Application No. 09/715,138. Although the conflicting claims are not identical, they are not patentably distinct from each other because the adhesives of the instant claims are in genus species relation to those of 09/715,138.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
